Corona viruses are a family of RNA viruses that can cause illnesses such as the common cold, severe acute respiratory syndrome (SARS) and Middle East respiratory syndrome (MERS). In 2019, a corona virus was identified as the cause of a disease outbreak that originated in China in city of Wuhan. The virus is now known as the Severe Acute Respiratory Syndrome Corona virus 2 (SARS-CoV-2). In March 2020, the World Health Organization (WHO) declared the COVID-19 outbreak a pandemic. Public health groups, including the U.S. Centers for Disease Control and Prevention (CDC) and WHO, were monitoring the pandemic and posting updates.

Scientists around the world are tracking changes in the virus that causes COVID-19. Their research is helping experts understand whether certain COVID variants spread faster than others, how they might affect your health, and how effective different vaccines might be against them.

Signs and symptoms of corona virus disease 2019 (COVID-19) may appear two to 14 days after exposure. This time after exposure and before having symptoms is called the incubation period. Common signs and symptoms can include Fever, Cough and Tiredness. However, early symptoms of COVID-19 may include a loss of taste or smell. Other symptoms can include: Shortness of breath or difficulty breathing, Muscle aches, Chills, Sore throat, Runny nose, Headache, Chest pain, Pink eye (conjunctivitis), Nausea, Vomiting, Diarrhoea as well Rash. The severity of COVID-19 symptoms can range from very mild to severe. Some people may have only a few symptoms, and some people may have no symptoms at all. Some people may experience worsened symptoms, such as worsened shortness of breath and pneumonia, about a week after symptoms start. People who are older have a higher risk of serious illness from COVID-19, and the risk increases with age. People who have existing medical conditions also may have a higher risk of serious illness. Certain medical conditions that may increase the risk of serious illness from COVID-19 include: Serious heart diseases, such as heart failure, coronary artery disease or cardiomyopathy, Cancer, Chronic obstructive pulmonary disease (COPD), Type 1 or type 2 diabetes, Overweight, obesity or severe obesity, High blood pressure, Smoking, Chronic kidney disease, Sickle cell disease or thalassemia, Weakened immune system from solid organ transplants, Pregnancy, Asthma, Chronic lung diseases such as cystic fibrosis or pulmonary fibrosis and Liver disease, Down syndrome, Weakened immune system from bone marrow transplant, HIV or some medications, Brain and nervous system conditions, Substance use disorders.

This list is not all inclusive. Other underlying medical conditions may increase your risk of serious illness from COVID-19.

Risk factors for COVID-19 appear to include:

- Close contact (within 6 feet, or 2 meters) with someone who has COVID-19
- Being coughed or sneezed on by an infected person

You can take additional steps to reduce your risk of infection. WHO and CDC recommend following these precautions for avoiding exposure to the virus that causes COVID-19:

- Avoid close contact (within about 6 feet, or 2 meters) with anyone who is sick or has symptoms.
- Keep distance between yourself and others (within about 6 feet, or 2 meters). This is especially important if you have a higher risk of serious illness. Keep in mind some people may have COVID-19 and spread it to others, even if they don't have symptoms or don't know they have COVID-19.
- Avoid crowds and indoor places that have poor ventilation.
- Wash your hands often with soap and water for at least 20 seconds, or use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- Wear a face mask in indoor public spaces and outdoors where there is a high risk of COVID-19 transmission, such as at a crowded event. Further mask guidance differs depending on whether you are fully vaccinated or unvaccinated. Surgical masks may be used if available. N95 respirators should be reserved for health care providers.
• Cover your mouth and nose with your elbow or a tissue when you cough or sneeze. Throw away the used tissue. Wash your hands right away.
• Avoid touching your eyes, nose and mouth.
• Avoid sharing dishes, glasses, towels, bedding and other household items if you're sick.
• Clean and disinfect high-touch surfaces, such as doorknobs, light switches, electronics and counters, daily.
• Stay home from work, school and public areas if you're sick, unless you're going to get medical care. Avoid public transportation, taxis and ride-sharing if sick.

If you have a chronic medical condition and may have a higher risk of serious illness, check with your doctor about other ways to protect yourself.

As per WHO globally, 16 May 2021, there have been 162,177,376 confirmed cases of COVID-19 exists, with 3,364,178 deaths. In America there are 3,25,74,504 Positive cases of COVID and in India 24,68,407 cases of which 5,79,664 deaths have been reported in America and in India 2,70,284 deaths reported in Uttarakhand 2,87,286 COVID-19 cumulative positive cases have been reported of which 1,98,530 have been cured. Total no. of cumulative samples taken is 39,74,947. As of 16th May 2021 21,224 samples sent for testing and of which 4496 are positive and 5034 cases recovered. Total existing active cases are 78,802; sample positivity 6.74% with recovery percentage 69.11%. As of 11 May 2021, a total of 1,264,164,553 vaccine doses have been administered worldwide.

During the previous year government to the capacity of ovid testing, external agencies were hired. Because of increase in number testing, identification of Covid Positive Patients was possible and soon GoUK was able to reduce the cases. However, in the second wave of corona, due to previous years of continued agreement and virtual increase in testing capacity of Hospitals Government, resulted increased Testing. This resulted in curtailment of sudden spike in the number of cases. However, as of today dated 12/6/21 there 463 positive cases identified today, 695 recovered, recovery percentage is 94.5%, existing positive cases 5021 and sample positivity now is 6.60%.

Government of Uttarakhand has to prepare itself for the third wave, whereby testing, Tracing and treatment strategy needs to be well planned and instituted as early as possible. Though health department has increased its capacity of testing but still we have to prepare ourselves for the surge, as during hard times testing could be augmented. In order to be ready to address this surge the tender is being floated to undertake COVID testing at prescribed rates.
Chapter-3

Scope of the Project

3.1. It is proposed to undertake testing of RAPID ANTIGEN TEST testing in Uttarakhand in Hilly and plain areas of Urban, Sub Urban and Rural Districts. The objective is to increase the testing to identify the cases and control the spread of pandemic.

Prior to technical evaluation of Proposals, DGMH&FW will determine whether each Proposal is responsive to the requirements of the EOI Document. A Proposal shall be considered responsive if:

a) Proposal is received by the Proposal Due Date and time.

b) Have submitted the proposal fees in the form of Draft before the proposal due date as mentioned.

c) Acceptance of the EOI and Power of Attorney for signing the proposal as required.

d) It contains the information and documents as requested in the EOI Document as per qualification criteria.

e) Should contain information in formats specified in the EOI Document.

f) It mentions the proposal validity period as set out.
g) There should be no inconsistencies between the Proposal and the supporting documents.

Chapter 5.

Instructions to the Empanelled Laboratory

A. General

Scope of Proposal

Directorate of Medical Health & Family Welfare, Government of Uttarakhand, (hereinafter referred to as “DGMH&FW”) invites detailed proposals (Key Submissions, Technical and Empanelment option Proposal, together referred to as ‘Proposal’) from Applicants, fulfilling the qualification criteria as set in this EOI, to undertake testing of Covid-19 for RAPID ANTIGEN TEST testing in Uttarakhand

5.1 The Proposals would be evaluated on the basis of the evaluation criteria set out in this EOI Document in order to identify the successful Empanelled Laboratory for the Project (“Successful Empanelled Laboratory”). The Successful Empanelled Laboratory would then have to enter into an agreement with CMO of the District and perform the obligations as stipulated therein, in respect of the Project.

5.2 Terms used in this EOI Document which have not been defined herein shall have the meaning ascribed thereto in the Service Level Agreement.

5.2 Empanelled Laboratory

No consortium shall be allowed.

5.3 Number of Proposals

Empanelled Laboratory shall submit only one (1) Proposal for the Project in response to this EOI Document for Covid testing in all Districts. Any Empanelled Laboratory, which submits or participates in the same project with more than one Proposal or in any Partnership, shall be disqualified.

5.3 Proposal Preparation Cost

The Empanelled Laboratory shall be responsible for all the costs associated with the preparation of its Proposal and its participation in the bidding such costs, regardless of the conduct or outcome of bidding.

5.4 Clarifications

Empanelled agencies requiring any clarification on the EOI Document may notify DGMH&FW in writing or by facsimile within such date as specified in the Schedule of Bidding Process.

5.6 Amendment of EOI documents

5.6.1 At any time prior to the Proposal Due Date, DGMH&FW may, for any reason, whether at its own initiative or in response to clarifications requested by a Empanelled Laboratory, modify the EOI Document by the issuance of Addenda.

5.6.2 Any Addendum thus issued will be binding upon them. Empanelled agencies shall promptly acknowledge receipt thereof to DGMH&FW.
5.6.3 In order to afford Empanelled agencies reasonable time in which to take and Addendum into account, or for any other reason, DGMH&FW may, at its own discretion, extend the Proposal Due Date.

B. Preparation and Submission of Proposal

5.5 Language and Currency

5.5.1 The Proposal and all related correspondence and documents shall be written in the English language. Supporting documents and printed literature furnished by the Empanelled Laboratory with the Proposal may be in any other language provided that they are accompanied by an appropriate translation into English. Supporting materials that are not translated into English may not be considered. For the purpose of interpretation and evaluation of the Proposal, the English language translation shall prevail.

5.5.2 The currency for the purpose of the Proposal shall be the Indian Rupee (INR).

5.6 Bid Security

5.7 Validity of Proposal

5.7.1 The Proposal shall indicate that it would remain valid for a period not less than 30 days (one month) from the Proposal Due Date (Proposal Validity Period). DGMH&FW reserves the right to reject any Proposal that does not meet this requirement.

5.7.2 Prior to expiry of the original Proposal Validity Period, DGMH&FW may request that the Empanelled agencies extend the period of validity for a specified additional period. An empanelled Laboratory agreeing to the request will not be allowed to modify its Proposal, but would be required to extend the validity of its Bid Security Declaration for the period of extension.

5.8 Project Inspection / Site Visit

Empanelled agencies may carry out Project Inspection/Site Visit at any time at their own cost.

5.9 Empanelled Laboratory’s Responsibility

5.9.1 The Empanelled Laboratory is expected to examine carefully the contents of all the documents provided. Failure to comply with the requirements of EOI Document will be at the Empanelled Laboratory’s own risk.

5.9.2 It would be deemed that prior to the submission of Proposal, the Empanelled Laboratory has:

(a) made a complete and careful examination of requirements, and other information set forth in this EOI Document;
(b) received all such relevant information as it has requested from DGMH&FW; and
(c) made a complete and careful examination of the various aspects of the Project including but not limited to:
   (f) the Project site
(ii) the conditions of the access roads and utilities in the vicinity of the Project Site
(iii) conditions affecting transportation, access, disposal, handling and storage of the materials
(iv) clearances obtained by DGMH&FW for the Project where ever required; and
(v) all other matters that might affect the Empanelled Laboratory's performance under the terms of this EOI Document.

DGMH&FW shall not be liable for any mistake or error or neglect by the Empanelled Laboratory in any respect.

iii. DGMH&FW reserves the right to reject any Proposal which in its opinion is non-responsive and no request for modification or withdrawal shall be entertained by DGMH&FW in respect of such Proposals.

iv. Conditional proposal shall not be considered. Any bid found to contain conditions attached, will be rejected.

5.24 CONFIDENTIALITY

Information relating to the examination, clarification, evaluation and recommendation for the short-listed Empanelled agencies shall not be disclosed to any person not officially concerned with the process. DGMH&FW will treat all information submitted as part of Proposal in confidence and will ensure that all who have access to such material treat it in confidence. DGMH&FW will not divulge any such information unless it is ordered to do so by any Government authority that has the power under law to require its disclosure.

5.25 Clarifications

To assist in the process of evaluation of Proposals, DGMH&FW may, at its sole discretion, ask any Empanelled Laboratory for clarification on its Proposal. The request for clarification and the response shall be in writing or by facsimile. No change in the substance of the Proposal would be permitted by way of such clarifications.

5.26 Proposal Evaluation

i. To assist in the examination, evaluation, and comparison of Proposals, DGMH&FW may utilize the services of consultant/s or advisor/s.
ii. The technical proposals of only those applicants who have been shortlisted at the EOI stage will be considered.

The Empanelled Laboratory shall attach the relevant documentation to demonstrate the continued eligibility for the project i.e. the attested true copies of Financial Capability Certificates,

Proposal Evaluation, the Key Submissions submitted by the Empanelled agencies shall be checked for responsiveness with the requirements of the EOI Document. The evaluation of Technical Proposal of a Empanelled Laboratory shall be taken up only after the contents of the Key Submissions are found to meet the requirements of this EOI Document. DGMH&FW reserves the right to reject the Proposal of a Empanelled Laboratory without opening the Technical Proposal if the contents of Key Submissions are not substantially responsive with the requirements of this EOI Document.

5.27 Notifications

DGMH&FW will notify the Successful Empanelled Laboratory by facsimile and by a letter that its Proposal has been accepted.

5.28 DGMH&FW’s Right to Accept or Reject Proposal

1. DGMH&FW reserves the right to accept or reject any or all of the Proposals without assigning any reason and to take any measure as it may deem fit, including annulment of the bidding process, at any time prior to award of Project, without liability or any obligation for such acceptance, rejection or annulment.

2. DGMH&FW reserves the right to reject any Proposal if:

(a) at any time, a material misrepresentation is made or uncovered;
(b) the Empanelled Laboratory does not respond promptly and thoroughly to requests for supplemental information required for the evaluation of the Proposal.
